

## FWM 03

The Tono FWM 03 Fixed tv wall mount is a low- profile wall mount for 65”– 100” flat- panel TVs up to 100kgs. Post- installation height and leveling adjustments ensure TVs are always perfectly positioned after hanging. Quick- release tabs allow the TV to unlock instantly from the wall plate for easy installation, while its low- profile design places the TV nearly flush to the wall for a clean appearance.

The FMW- 03 features an open wall plate design that provides ample room for cable routing, and QuickFit™ technology allows a surge protector to attach easily to the center of the mount, so it stays hidden yet easily accessible. The TV can also be shifted left and right on the wall plate for perfect placement, even with off- center studs. Powder- coated steel construction offers strength and durability.
