

The Tono M50s is the compact version of our flagship M50 projector mount, designed for installations where shorter drop lengths are required. Despite its smaller size, it delivers the same robust build,  $\pm 5^\circ$  precision adjustments, and 50kg weight capacity—perfect for low-ceiling environments, meeting rooms, or home cinemas.

### Features

- Ultra-Slim, Minimalist Design
- Heavy-Duty Construction – Withstands up to 50kg (110 lbs)
- Custom Extendable Lengths – From 150mm to 1070mm(Additional Cost)
- Precision Adjustment –  $\pm 5^\circ$  vertical tilt, roll & rotation
- NPT 1.5" Standard Thread Compatible
- Quick Install, Truss Ready
